What Is Claimed Is:

- 1. An article of footwear, comprising:
- a sole portion;
- a second portion above the sole portion, the second portion including a compartment therein; and
- a drawer which is receivable within the compartment of the second portion and elastically attached to the article of footwear.
- 2. The article of footwear according to claim 1, wherein the second portion is a heel portion of the article of footwear.
- 3. The article of footwear according to claim 1, wherein the drawer is attached to the article of footwear by an elastic thread.
- 4. The article of footwear according to claim 3, wherein the thread is anchored through an opening on an interior wall of the storage compartment or at a location behind the wall of the storage compartment.
- 5. The article of footwear according to claim 1, wherein the drawer includes a front plate with end portions that fit on an exterior wall of the second portion when the drawer is engaged with the compartment of the second portion.

- 6. The article of footwear according to claim 5, wherein the drawer is disengaged from the compartment of the second portion by pulling the end portions of the front plate.
- 7. The article of footwear according to claim 6, wherein the drawer can be swung sideways when the drawer is disengaged from the compartment of the second portion.
 - 8. An article of footwear, comprising:

a sole portion;

a heel portion above the sole portion, the heel portion including a compartment therein; and

a drawer which is receivable within the compartment of the heel portion and attached to the article of footwear by an elastic thread.

- 9. The article of footwear according to claim 8, wherein the thread is anchored through an opening on an interior wall of the storage compartment or at a location behind the wall of the storage compartment.
- 10. The article of footwear according to claim 8, wherein the drawer includes a front plate with end portions that fit on an exterior wall of the second portion when the drawer is engaged with the compartment of the second portion.

- 11. The article of footwear according to claim 10, wherein the drawer is disengaged from the compartment of the second portion by pulling the end portions of the front plate.
- 12. The article of footwear according to claim 11, wherein the drawer can be swung sideways when the drawer is disengaged from the compartment of the second portion.
- 13. The article of footwear according to claim 8, wherein at least one of a width and height of the drawer decreases gradually towards an interior of the compartment of the heel portion.
- 14. The article of footwear according to claim 10, wherein the front plate is formed having a concave shape.
 - 15. An article of footwear, comprising:
 - a sole portion;
- a second portion above the sole portion, the second portion including a compartment therein; and
- a drawer which is receivable within the compartment of the second portion and elastically attached to the article of footwear, wherein the drawer has an interior portion that is divided into a plurality of compartments.

- 16. The article of footwear according to claim 15, wherein the second portion is a heel portion of the article of footwear.
- 17. The article of footwear according to claim 15, wherein the drawer is attached to the article of footwear by an elastic thread.
- 18. The article of footwear according to claim 17, wherein the thread is anchored through an opening on an interior wall of the storage compartment or at a location behind the wall of the storage compartment.
- 19. The article of footwear according to claim 15, wherein the drawer includes a front plate with end portions that fit on an exterior wall of the second portion when the drawer is engaged with the compartment of the second portion.
- 20. The article of footwear according to claim 15, wherein at least one of the plurality of compartments of the drawer includes a flap having a button.
